at 2 the Circle, Georgetown.

Steven Sinclair, former Director of Forests and State Forester for the State of Vermont, will be Sussex Preservation Coalition's guest speaker on Wednesday, December 10th.

Steve will present the economic—as well as the environmental and health—benefits of trees and forest cover. Finally, economic facts and data, a way to put a number to the long-term benefits of our life sustaining green lungs of the earth.

During his forty-three-year career, Steve served as the Chair of the National Association of State Foresters Urban and Community Forestry Committee, a founding member of the Sustainable Urban Forest Coalition, a member of the National Urban and Community Forestry Advisory Council, and the Chair of the American Tree Farm System Recertification Board.
